

## Double scoops

Can you think of 7 different flavours?

You want to buy a double scoop with 2 different flavours

Which different combinations could you choose?

Use the table to record the combinations

Ice-Cream Flavour	Chocolate						
Chocolate	x						

Some ideas if you get stuck!!

*chocolate; vanilla; raspberry; strawberry; coffee; choc-mint; banana; lemon & lime; blueberry; choc-chip*

**What if there were 9 different flavours to choose from? How many different combinations would there be?**

**What if there were 10 different flavours to choose from? How many different combinations would there be?**

**What if there were 11 different flavours to choose from? How many different combinations would there be?**
