CALLING ALL MALE ROLE MODELS - DESIGN TECHNOLOGY DAY

On Friday 12th July the whole school is taking part in a DT day. During the day, children will have the opportunity to participate in practical activities and projects. If any dads, grandads, uncles, older brothers are able to come along and help for the day or part of the day, it would be greatly appreciated. Please speak to a member of staff in the office if you are interested in supporting us on this special curriculum day.

We would also appreciate a 50p donation from each child towards the cost of materials for the day.

ONLINE SAFETY TIP OF THE WEEK

Remember that the positive aspects of the Internet outweigh the negatives.

The internet is an excellent educational and recreational resource for children. There are millions of age-appropriate sites for younger children. Encourage your children to use such sites and to avoid registering for sites and services with adult content and behaviours. Help your child read the Terms & Conditions of Service for any site which they wish to join and to comply with the age restrictions of the site. Help your child apply all the privacy and security settings on the site. Encourage your child to be critically aware and explore the internet to its full potential.

HEALTHY HEROES TIP OF THE WEEK

Nutrition Ninja says...

Today is a great day to start a new healthy habit - eating 1 more fruit a day than you already do. If you could choose, which fruit would you eat every day?

MANTLE OF THE EXPERT

Throughout this academic year, our Year 2D and Year 4 class have both been working with Luke Abbott on a learning process called Mantle of the Expert! This exciting process uses dramatic conventions to engage children with their learning. You can see some children hard at work below! Children act as 'experts' in a given scenario and work they complete is linked to the role. Both of these classes have thoroughly enjoyed this way of learning and we look forward to expanding this across the school from September.
